app

*This module is a dependency for **0** other parts of the system.*

 Code Logic Breakdown

◇ **Function:** **None**

The **None** Function serves as a core logic block within this module.

 File: `generate_incidents.py`

 Dependency Graph

*This module is a dependency for **0** other parts of the system.*

 Code Logic Breakdown

◇ **Function:** `generate_incident_text`

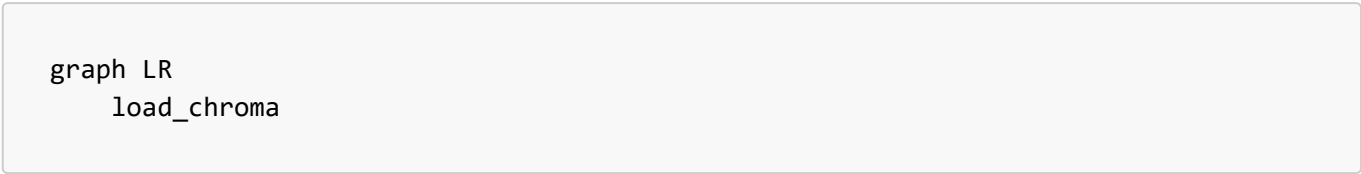

The `generate_incident_text` Function serves as a core logic block within this module.

◇ **Function:** `add_incident_to_doc`

The `add_incident_to_doc` Function serves as a core logic block within this module.

 File: **load_chroma.py**

 Dependency Graph

*This module is a dependency for **0** other parts of the system.*

 Code Logic Breakdown

◇ **Function:** **None**

The **None** Function serves as a core logic block within this module.
