Ch 4: Supporting Infrastructure

Chapter Architecture

```
graph LR
    app --> Imp_0[Impact Score: 0]
    code_generation --> Imp_0[Impact Score: 0]
    orchestrator --> Imp_0[Impact Score: 0]
```

 Module: `app.py`

Logic

- `main`: *No description available.*
-

 Module: `code_generation.py`

Logic

- `generate_project_plan`: Generates a structured plan and code for a multi-file project. The output MUST be a strict JSON array with full relative file paths.
-

 Module: `orchestrator.py`

Logic

- `get_framework_blueprint`: Detects the required language, framework, and architectural constraints.
 - `orchestrate_multi_file`: *No description available.*
-
